

Data That Speaks Volumes

The LI-6400 is the most referenced photosynthesis system in scientific literature, and for good reason. Used worldwide for plant research, the LI-6400 provides unmatched integration and proven ruggedness and reliability. For more information on the LI-6400, including a product tour, click on www.licor.com/6400

eTOCs

Plant Physiology's FREE eTOC service allows anyone who registers to be notified via e-mail when new content goes online. You may choose to receive any or all of the following:

- Notification that a new issue of *Plant Physiology* is online
- Planned tables of contents for future issues
- Complete table of contents for new issues
- Special Announcements from ASPB

SIGN UP NOW!!!

Cover Art Wanted!

Plant Physiology is always looking for cover submissions from authors of upcoming articles. If you have an outstanding color figure or cover design concept that would look great on a future cover of the Journal, please include it with your manuscript submission.

Plant Biology 2006

Joint Annual Meeting of the
American Society of Plant Biologists
and the
Canadian Society of Plant Physiologists
Soci t  Canadienne de Physiologie V g tale

SYMPOSIA

Plants Mitigating Global Change—
Stephen P. Long, University of Illinois

Legumes: Genomes to Biology—
Douglas R. Cook, University of California-Davis

Ion Channels and Cellular Signaling—
Julian I. Schroeder, University of California-San Diego

Gibbs Medal Symposium:
Genome Scale Biology—
Joseph R. Ecker, The Salk Institute

President's Symposium:
Plant Responses to the Environment—
Michael F. Thomashow, Michigan State University

CSPP President's Symposium:
Tree Physiology and Genomics—
Dr. Robert D. Guy, University of British Columbia

Hynes Convention Center
Boston, Massachusetts
August 5-9, 2006
