

# Attention Plant Biologists and Agricultural Scientists in Developing Countries!

If you live in one of the developing countries listed here, your institution may be eligible for **FREE** online access to *Plant Physiology*, *The Plant Cell*, and many other scientific journals!

ASPB participates in three initiatives to bring the scientific research literature to scientists working in many developing nations: AGORA (food and agricultural science), HINARI (biomedical and health literature), and OARE (environmental science).

Public institutions in eligible developing countries can sign up for access by registering online ([www.aginternetwork.org/en/about.php](http://www.aginternetwork.org/en/about.php); [www.who.int/hinari/en](http://www.who.int/hinari/en); [www.oaresciences.org](http://www.oaresciences.org)). So, go to the person in charge of journal subscriptions at your institution (probably the chief librarian) to see if you are already registered. If not, then please explain that this is very important for your research and that the service is free.

**Don't delay—act now!**

If you have questions, contact  
**AGORA/HINARI/OARE** or  
ASPB's director of publications, Nancy Winchester,  
at [nancyw@aspb.org](mailto:nancyw@aspb.org).
