CALL FOR PAPERS

Plant Physiology Focus Issue on Plant Interactions with Bacterial Pathogens

Deadline for Submissions: April 1, 2009
To submit an article, please go to http://submit.plantphysiol.org.

Plant Physiology is pleased to announce a Focus Issue on Plant Interactions with Bacterial Pathogens to be published in August 2009. The issue will be edited by Pamela Ronald and Martha Hawes. It will focus on mechanisms of recognition as well as bacterial and plant molecules mediating the interactions. Research articles reporting on all areas of plant-bacterial interactions, including from gene expression to proteomics to biochemistry, will be considered. A set of targeted update articles on important areas of research will be solicited.

Authors interested in contributing should indicate this in their cover letter when submitting papers online at http://submit.plantphysiol.org/. Please select “Plant Interactions with Bacterial Pathogens (August 2009)” from the Focus Issue list in the online submission system. Articles published within 2 years before and after the Focus Issue will be considered for inclusion in an online Focus Collection of articles relevant to the focus topic (see http://www.plantphysiol.org/cgi/content/full/142/2/379 for an editorial about Focus Collections).

Please contact Pamela Ronald (pcronald@ucdavis.edu) or Martha Hawes (mhwes@u.arizona.edu) for additional information.
KEY TO PANELS IN COVER IMAGE

Attention Plant Biologists and Agricultural Scientists in Developing Countries!

If you live in one of the developing countries listed here, your institution may be eligible for FREE online access to Plant Physiology, The Plant Cell, and many other scientific journals!

ASPB participates in three initiatives to bring the scientific research literature to scientists working in many developing nations: AGORA (food and agricultural science), HINARI (biomedical and health literature), and OARE (environmental science).

Public institutions in eligible developing countries can sign up for access by registering online (www.aginternetwork.org/en/about.php; www.who.int/hinari/en; www.oaresciences.org). So, go to the person in charge of journal subscriptions at your institution (probably the chief librarian) to see if you are already registered. If not, then please explain that this is very important for your research and that the service is free.

Don't delay—Act now!

If you have questions, contact AGORA/HINARI/OARE or ASPB's director of publications, Nancy Winchester, at nancyw@aspb.org.
